If the genetic revolution swings toward polled, the Holstein breed needs primarily one thing: more and genetically valuable homozygous polled sires. But something is happening. Almost every evaluation is bringing new PP talents into the spotlight. The August evaluation is no exception. Quite the opposite in fact, as you will read here.

STEPHAN SCHNEIDER CHRISTINE MASSFELLER

We will begin in Canada, where the Cosmopolitans have produced the new Nr.1 among PP sires with Col Chivas. The Hologram son, whose dam is a Powerball-Headliner-Freddie from Cosmopolitan, reaches a high of 2618 gTPI on US basis and would take over spot Nr.4 there. The other top homozygous polled sires remain relatively stable, especially Never Again and the red Jackpot. The summer brought big changes within the USA. The new holder of the top spot is Daylite, who has been available since June, a Zipit-Powerball from Richmond-FD Barbara, the EX-90 Superstition of whom there are two further generations of EX cows and who showed qualities as a bull mother with sires like Bombero. Nr.2 on the US PP list since this summer is the ABS-Icon sire Swayze. The fitness-strong red-carrier goes back to Coyne Farms Ramos Jelly via Powerball-Tango-Shamrock-Freddie. The spots behind the stable Answer son Presley are occupied by three half-brothers by sire to round out the top-6. The highest of them is Jopollo, who is a half-brother by dam to Swayze and breeds for good production as well as good udders. Nr.5 is occupied by Genosource Poet from the Gold-N-Oaks Marbella family, a high milk sire with a great all-around conformation. Right behind him comes

Bonanza, also strong for production, who is a grandson to Farnear-TBR-BH Gorgeous from the Outside Gigi family. The eighth newcomer in the US top-10 is Nebulus. The allrounder comes from the combination of the Powerball son Tool with Holyland Sundrop, an Eraser-Relief out of Dymentholm Sunview Sunday.

MISSION

The sire of sons of the hour in Germany is certainly Mission P. The Missouri son from the Massias is the father of the four highest black and white PP sire as well as two of the red and white top-3. The top two spots for the black and white PP sires go to Merian and Magnat. Merian goes back to Golden-Oaks Gwyn Perky via a VG-85 Balisto and a VG-86 Epic, and his strengths are protein and udder as well almost all fitness traits. The milk sire Magnat comes from a GP-84 Powerball from Butlerview Let It Shine from the Chief Adeens. His full-brother Moncur makes the list at Nr.11. List leader for the red and white PP sires for August is still the Apoll son Abi-PP-Red, but he now needs to share the top spot with NH Meruno-PP-Red, who doesn't just breed for outstanding milk production and great udders but also has quite a special pedigree. This is because his dam, a VG-86 Capple daughter, is a half-sister to his father. So, we find the famous Asterix daughter Maya on both sides of his pedigree. She is the dam of his sire Mission as well as his dam Merle.

NEW LIST LEADER

How strongly Mission's dam Maya is now influencing polled breeding can be seen with a glance towards the Netherlands. The highest PP sire there is Saturnus-PP-Red, an extreme production bull on both German and Dutch basis and another Mission son. A real allrounder with great fitness values is Stentor-PP-Red, a Powerline-Atlantic-Frank. Stentor, who is bred from the extreme production 2-year-old Delta Atlantic Suze VG, does not come alone. His Laurent half-brother Surrender, also a strong allrounder with excellent udder health, daughter fertility and high components, even makes it to Nr.1 on the list of available PP sires in the Netherlands and pushes Fair to second place. A new Nr.1 with a great pedigree can also be found in

Italy with Cromo. The Clash son with good values for feet and legs, production, and longevity is the grandson of Bel Shout Samantha EX-90. Also found in his pedigree is an EX-94 Goldwyn and the famous Toc-Farm Progress Amy EX-93, the dam of the former World Champion Toc-Farm Allen Amy EX-95. ●

Eyecatchers!

- Chivas pushes Never Again out of Canada's top spot
- Daylite & Swayze: a new top-2 in the USA
- Eight newcomers in the US top-10 PP sires
- Mission stands behind the complete top-4 in Germany
- Cromo: an interesting new Nr.1 in Italy

The Cosmopolitan granddaughter Col Headliner Carmen VG-86 has produced the new Nr.1 on the PP list in Canada with her grandson Col Chivas.
